

Available in rating of 6A, 10A, 16A, 20A,
25A, 32A, 40A, 63A-240/415 V AC with
Single Pole(SP), Single Pole + neutral(SPN),
Double Pole(DP), Three Pole(TP),
Three Pole + neutral(TPN), Four Pole(FP), Isolator.

MINITAURE CIRCUIT BREAKER

"C" CHARACTERISTICS MCB'S WITH 10K BREAKING CAPACITY

KWIKTRIP Miniature Circuit Breakers (MCB's) is the latest offering from the house of "KOLORS" which has already established its brand name throughout the country & is growing by leaps & bounds. The company today enjoys a high degree of recognition for their quality products & services among the architect, builder, contractor & engineering fraternity.

The company has state-of-the-art manufacturing facilities at multiple locations in India. It is supported by a full-fledge in-house product development division which continuously innovates various products, processes and its safety features. The products are manufactured as per BIS standards. The company is certified to integrated management system (IMS) of ISO 14001 for environmental management system (EMS) & ISO 9001 for quality management system (QMS).

Elegant appearance, cover in arc shape, knob in V shape for comfortable operation. Contact position indicated on operating lever. Installation on symmetrical DIN rail 35mm.

Salient Features:

- Conformance to IS/ IEC 60898-1
- Long endurance: > 4000 electrical endurance
> 10000 mechanical endurance
- Energy limiting class: 3
- Rated impulse withstand voltage: 4KV
- High short circuit capacity 10000 A for whole range
- Powerful arc extinguish system with special 15 plate arc chute
- 4.5mm gap between contacts in open position
- Low leakage current i.e. 19 μ A at 1KV (whereas IEC specifies 2ma at 1.1 x 240V)
- High resistance of body more than 25000M Ω
- IP20 protection
- Connection capacity up to 35mm² rigid conductor
- Quick making mechanism
- Good conductivity, low voltage drop against breaker, low temperature rise
- Unweldable contacts
